
Jello Dashboard Keygen Full Version Download [Latest]

Jello Dashboard Crack + Torrent Download

We've created Jello Dashboard using the Getting Things Done methodology and this is a self-sustaining software solution. We spent a lot of time in creating what we think the best solution for Microsoft Outlook could be. With Jello Dashboard you'll be able to use your existing Microsoft Outlook data. You can also import your task data into Jello Dashboard and easily re-order your tasks, review completed tasks, and schedule new tasks. Jello Dashboard Summary: • Organize your data • Use your Outlook data with GTD methodology • Import your existing Outlook tasks • Automatically sync with your calendar • Work with your existing Microsoft Outlook data • Schedule new tasks • Review your completed tasks • We created few presets, you can change it to get the exact look and feel you like. • Keep your data always up to date • You can always leave this solution to update and upgrade it if we add new features or if you get confused with the current version we created. • Import your existing tasks, using the CSV or XLS formats. • Export your tasks to the CSV or XLS format • Automatic synchronization with your calendar • Re-order your tasks • Add new tasks • Export your tasks to calendar • Review your completed tasks • Add multiple tasks per day • Set today's tasks to the homepage • Set your choice of the backup folder (put the backup folder on the homepage) • Export your tasks to CSV or XLS file • Export your completed tasks to CSV or XLS file • Preview the tags in your tasks • Schedule new tasks • Filter your tasks • Import your existing tasks • Change the colors of the text in your tasks • Set the date on which you want your tasks to be scheduled • Sort your tasks by their priority • Check the due date to see the next task • Group your tasks according to the folder (Home, Tasks, Inbox, Calendar) • Add an image to your tasks • View the tasks in list or tree view • Export your tasks to calendar • View the tasks in Calendar • View the tasks in Recurrence • View the tasks in Day view • Change the list view appearance • Set the date on which you want to stop your tasks • Change the text format of your tasks • Change the colors of your task • Open tasks to the home page •

Jello Dashboard Crack + (LifeTime) Activation Code Free Download [32/64bit]

Works like an Outlook folder Pulls your email, calendar and tasks from the Outlook inbox Connects to the tasks you do in Microsoft Outlook Does not rely on any proprietary technology Will function in a web browser or offline mode Has optional, user definable themes and a host of customizable behavior and workflow options Jello Dashboard Activation Code looks and feels like an Outlook folder, but when you open it, you are instantly looking at a GTD view of your Microsoft Outlook emails and calendar. Drag and drop your tasks, events, and other items into the Jello Dashboard and you have a view of everything in one coherent interface. Jello Dashboard includes the following features: Drag and drop task and event creation Drag and drop email, calendar and contact import New task view with summaries Download multiple versions of the Jello Dashboard. The one for the Mac is ready to run, even when you are offline. Set the Jello Dashboard as your home folder homepage and start working right from Outlook. Connect to Outlook Tasks, Calendar and Contacts using the web-based interface Set the Jello Dashboard as the initial home page in Outlook Create new tasks and events as you receive them in Outlook Configure Outlook tasks and events to add dates and/or due dates, email priorities and email rules to your tasks Configure Jello Dashboard in Outlook to prioritize events based on deadlines, email and tasks that you do not need to complete Add a due date or approximate due date to tasks Automatically summarize tasks based on the due date Optionally create a summary of your tasks Configure the appointment reminder to email a task or event on your due date Add a contact name to a task or event, email or other task or event based on a contact's mail address Create a single task or event for multiple contacts or multiple tasks or events for a single contact Create an event or task for multiple contacts Add a new calendar, task or event for multiple contacts Add multiple contacts to a task or event Add multiple tasks or events for a single contact Create tasks based on the tasks in other folders Create events based on the events in other folders Move tasks and events from one folder to another Add tags, categories and notes to your tasks or events Add an alert to 09e8f5149f
